

# Countdown timer

Model: 68495

## Operating instructions

### Directions for use

1. Plug into any 13A mains socket and switch on.
2. Insert the cable of your appliance/device into the required port (3 pin plug, USB-A or USB-C).  
NB. Multiple appliances/devices cannot be powered/charged simultaneously using more than one port at a time.
3. Press the "SOCKET" or "USB" button (depending on what port your appliance/device is inserted) to select ON or a chosen countdown time - 15 mins, 30 mins and 1/2/4/6/8 hours.  
NB. A white LED will illuminate above the selected time (it will flash for USB ports and remain steady for 3 pin socket). The LED will turn off during charging.
4. Your appliance/device will automatically turn off/stop charging after the countdown is complete.  
NB. If there is a power failure of the mains socket is switched off then the countdown timer will need to be reprogrammed.

### Specification

3 pin socket | 230V AC 50Hz | Max load: 13A  
USB sockets | 5V DC | Max load: 3A

### Safety warning

This product is not a toy. Do not plug in multi plug adaptors/extensions leads. Do not use with immersion heaters, over 500W filament or discharge type lighting. Not suitable for commercial use. For indoor use only (operating temp: -10°C to 40°C). Do not plug in an appliance where the load exceeds 13 Amp. Always ensure the plug of any device/appliance is fully inserted into the timer. If cleaning of the timer is required, remove from the mains power and wipe timer with a dry cloth. Do not immerse in water or any other liquid. Do not connect the timer to a device performing a mechanical function. Failure to follow these safety instructions could result in fire, electric shock, injury or damage to persons, product or property and will invalidate the guarantee.

### Guarantee

This product is guaranteed for one year from the date of purchase against faulty parts or workmanship. It does not cover physical damage to the unit. Proof of purchase required. This does not affect your statutory rights.
